

COVID-19 COMPLIANT PROTOCOL

- Avoid entering Amro Music if you have a cough, fever, or other signs/symptoms of COVID-19.
- Maintain a minimum six-foot distance between individuals, or entire household units of up to six persons defined as residing at the same address, and other individuals.
- Sneeze or cough into a cloth or tissue or, if unavailable, into one's arm.
- Do not shake hands or engage in any unnecessary physical contact.

In an effort to protect each other, we ask that you please follow these guidelines:

- Please use hand sanitizer when entering the store.
- Kindly consider wearing a face mask when entering our store.
- Before handling or test-playing an instrument, please seek the assistance of an associate.
- Please pass any instruments that have been played to one of our associates so we can follow our cleaning procedures.

In an effort to protect each other, we ask that you please follow these guidelines:

- Please use hand sanitizer when entering the store.
- Kindly consider wearing a face mask when entering our store.
- Before handling or test-playing an instrument, please seek the assistance of an associate.
- Please notify an associate when you are finished test-playing the piano you're interested in. This will help us to prepare it for the next customer by following our cleaning procedures.

We are all in this together, and it's our job to lead the charge. Here are some things that we can do:

- Wear a mask, especially in common areas and when speaking with co-workers.
- Check your temperature daily prior to coming to the office. Do not come in if you have a fever.
- Do not share phones, work spaces or computer equipment.
- Disinfect your work area at the beginning and end of each day.
- Disinfect common areas in your department at the beginning and end of each day and between guests.
- Limit socializing and practice social distancing of at least 6 feet.
- Limit the number of people in the kitchen area behind the counter to no more than two individuals.
- Wash your hands frequently.

If you answer yes to any of these questions, please do not enter and call your manager.

- Are you running a fever greater than 100.4F?
- Have you been in close contact with a confirmed case of COVID-19 in the past 14 days?
- Are you experiencing a cough, shortness of breath or sore throat?
- Have you had a fever in the last 48 hours?
- Have you had new loss of taste or smell?
- Have you had vomiting or diarrhea in the last 24 hours?

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Music enhances fine motor skills, or the ability to use small, acute muscle movements to write, use a computer, and perform other physical tasks."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Infants recognize the melody of a song long before they understand the words. They often try to mimic sounds and start moving to the music as soon as they are physically able."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"In the past, secondary students who participated in a music group at school reported the lowest lifetime and current use of all substances (tobacco, alcohol, and illicit drugs)."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Schools with music programs have an estimated 90.2% graduation rate and 93.9% attendance rate compared to schools without music education, which average 72.9% graduation and 84.9% attendance."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"U.S. Department of Education data on more than 25,000 secondary school students found that students who report consistently high levels of involvement in instrumental music over the middle and high school years show 'significantly higher levels of mathematics proficiency by grade 12'."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Teens described their music teachers as encouraging, motivating, and acting as both role models and friends that can be trusted for listening and giving advice."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Young children who take music lessons show different brain development and improved memory over the course of a year, compared to children who do not receive musical training."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Students at schools with excellent music programs had higher English test scores across the country than students in schools with low-quality music programs; this was also true when considering mathematics."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Majorities of parents whose children are involved in music classes also credit music education for making them happier, more focused, more self disciplined, stronger academically, and more helpful."

PLEASE WAIT HERE TO MAINTAIN SOCIAL DISTANCING

"Three in five Americans (61%) said music education provided a disciplined problem solving approach and 59% said it prepared people to manage tasks more successfully."

We will continue to offer curbside service for:

- *Instrument Repairs*
- *Accessories*
- *Print Music Orders*

FOR MORE INFORMATION, CALL AMRO AT 901-323-8888.

REASONS TO BE IN MUSIC

MAKES YOU SMARTER

Scientific research has proven that musical training builds intellectual skills, raises IQs, increases spatial-temporal intelligence, improves memory, and develops creativity. As a result, children who play a musical instrument do better on average in school than those who don't. In a recent study of SAT scores, students with music education scored 53 points higher on verbal and 39 points higher on math.

TEACHES DISCIPLINE

Music students learn that if they apply themselves they can master a skill and achieve results they want. Learning to play a musical instrument teaches self-discipline, the value of persistence, and the rewards of hard work. Studies have shown that music students are involved in fewer discipline problems, less crime, and less substance abuse than non-musical students.

INCREASES SELF-ESTEEM

Music is self-expression. Performing music in public, individually, and as a member of a group builds confidence. Making music means every musician plays a part that is important to the group.

RELIEVES STRESS

Music helps calm the mind. It's been shown that music students experience less test-and-performance anxiety than students who don't study music. And according to studies, college age musicians are emotionally healthier than non-musicians.

FUN AND SOCIAL

Playing music in a group teaches teamwork, ways of working together, and the joy and rewards of group accomplishment. Band and orchestra members share efforts and experiences, and are often friends for life.
